1 **Q. Please provide a summary of the R-10 residential customer class rates and**  
2 **charges.**

3 A. The rates and charges for the R-10 residential customer class are summarized as  
4 follows:

5 1. UNSG Proposed Rate Design is a single basic service charge of \$11.00  
6 and a commodity based charge of \$0.3324 per therm;

7  
8 2. RUCO's Proposed Rate Design is a single basic service charge of \$10.00 and a  
9 commodity based charge of \$0.3434 per therm.

10  
11 **Proof of Recommended Revenue**

12 **Q. Has RUCO prepared a Schedule presenting proof of your revised recommended**  
13 **revenue?**

14 A. Yes. As can be seen in Schedule SURR RLM-RD1, RUCO's recommended rate design  
15 will produce RUCO's recommended level of required revenue.

16  
17 **RUCO RECOMMENDED PGA SURCREDIT**

18 **Q. Please describe RUCO's recommended PGA surcredit**

19 A. RUCO is recommending UNSG establish a monthly PGA surcredit for one year to  
20 mitigate the financial impact of this rate increase. The surcredit would be funded from  
21 the existing over collected balance in the Company's PGA account. The one year PGA  
22 Surcredit would provide a monthly credit of \$0.0164 per therm.
